

Cluster 77592

To view the latest Map of Science clusters and data, visit the live Map at sciencemap.eto.tech.

Subjects

Research fields: Sociology, Medicine, Political science

The most common research fields of articles in this cluster. [Read more.](#)

Research subfields: Medical education, Mathematics education, Pedagogy

Common research subfields of articles in this cluster. [Read more.](#)

Key concepts: student learning, capstone experiences, law school students, higher education, project model capstone

These key concepts are identified algorithmically using article titles and abstracts. [Read more.](#)

2.70% of all articles are AI-related

Articles are algorithmically labeled as AI-related or not. The percentage is based on articles in the cluster from the five year period ending in 2023 with English-language abstracts. [Read more.](#)

0.00% of English-language articles are related to robotics

Articles are labeled as robotics-related or not using an ETO model. The percentage is based on articles in the cluster from the five year period ending in 2023 with English-language abstracts. [Read more.](#)

0.00% of English-language articles are related to computer vision

Articles are labeled as computer vision-related or not using an ETO model. The percentage is based on articles from the five year period ending in 2023 with English-language abstracts. [Read more.](#)

0.00% of English-language articles are related to natural language processing

Articles are labeled as NLP-related or not using an ETO model. The percentage is based on articles from the five year period ending in 2023 with English-language abstracts. [Read more.](#)

0.00% of English-language articles are related to AI safety

Articles are labeled as related to AI safety or not using an ETO model. The percentage is based on articles from the five year period ending in 2023 with English-language abstracts. [Read more.](#)

0.00% of English-language articles are related to cybersecurity

Vital signs

124 recent articles in the cluster

124 articles in this cluster were published in the five year period ending in 2023.

Average article is **17.90** years old

The average age of articles in this cluster. However, most Map of Science metrics are calculated using articles from the past five years only.

Growth rating: **87.58th** percentile

Over the three year period ending in 2023, this cluster grew faster than roughly 87.58% of other clusters.

Citation rating: **30.85th** percentile

A cluster's citation rating is equal to the average citation percentile for all the articles in the cluster. Citation percentiles are calculated relative to articles of the same publication year. In this case, the average article in this cluster is cited more often than roughly 30.85% of all other articles published in the same year.

79.03% of articles are in English

Not expected to grow extremely fast

As determined by ETO's growth prediction model. [Read more.](#)

Countries and languages

Top author countries

Each row lists the number of articles in this cluster from the last five years with at least one author from an organization in the specified country. Data available for 98 of 124 articles. 72 of these articles had at least one author from an organization in these ten countries.

Country	Articles (five year period ending in 2023)	Yearly citations per article (average)
United States	28	0.94
Indonesia	12	0.99
Australia	9	3.22
China	8	0.16
Russia	5	0.18
Canada	4	0.19
United Kingdom	4	1.19
Turkey	3	0.33
Taiwan	3	0.92
Brazil	3	0.63

Top funding countries

Data available for 4 of 124 articles. 4 of these articles disclosed funding from one or more organizations in these ten countries.

Country	Articles (last five years)	Yearly citations (average)
Taiwan	1	2.75
Spain	1	0.33

Articles and sources

Core articles

Core articles are especially highly connected to other papers within the cluster.

[Limitations of a Constructivist Teaching-Learning Model At the Salcedo, Ecuador Educational Unit](#)

2020: Revista Educación. 7 citations.

[Using the Online Capstone Experience to Support Authentic Learning](#)

2020: TechTrends. 7 citations.

[Strategies for integrating a web-based learning environment based on authentic learning in distance learning for elementary school students](#)

2023: Journal of Education and e-Learning Research. 5 citations.

[Coexistence and creativity: screen media education in the age of artificial intelligence content generators](#)

2023: Media Practice and Education. 25 citations.

[Disruptive Accounting Technology and Institutional Efficiency of Professional Accounting Institutes in Nigeria](#)

2023: International Research Journal of Innovations in Engineering and Technology. 2 citations.

[Multi-Institutional Survey of Faculty Experiences Teaching Capstones](#)

2020: College Teaching. 3 citations.

[Teaching Publishing and Editorial Practice](#)

2022. 3 citations.

Review articles

Review articles have between 100 and 1000 out-citations. These articles describe and systematize other contributors' research.

No data available.

Highly cited articles

Highly cited articles are the articles in the cluster with the most citations overall.

[Mapping and Making Meaning from Undergraduate Student Engagement in High-Impact Educational Practices](#)

2022: Innovative Higher Education. 12 citations.

[Development of teaching materials for momentum assisted by scratch: building the pre-service teacher's skills for 21st century and industry revolution](#)

2020: Journal of Physics: Conference Series. 10 citations.

[ChatGPT Isn't Magic](#)

2023: M/C Journal. 15 citations.

[What Is Authentic Learning?](#)

2021: Routledge eBooks. 27 citations.

[COVID-19 Induced Transition from Classroom to Online Mid Semester: Case Study on Faculty and Students' Preferences and Opinions](#)

2020: Higher Learning Research Communications. 34 citations.

[Coexistence and creativity: screen media education in the age of artificial intelligence content generators](#)

2023: Media Practice and Education. 25 citations.

[The impact of industry-oriented capstone courses on the employability of EECS students in technological universities](#)

2021: Education + Training. 14 citations.

Top sources

The most common sources of articles from the last five years in this cluster, such as specific journals, conference proceedings, or preprint servers. Data available for 122 out of 124 articles. 17 of these articles came from these sources.

Source	Articles (last five years)
中华护理教育	3
Routledge eBooks	2
Communication Teacher	2
Journal of education	2
Springer eBooks	2
College Teaching	2
Decision Sciences Journal of Innovative Education	1
Journal of Social Work Education	1
RBEC: Revista Brasileira de Educação Comparada	1
Education + Training	1

Authors, organizations, and funders

Top authors

The authors with the most articles from the last five years in this cluster. Data available for 123 of 124 articles. 11 of these articles were written by these authors.

Author	Articles (last five years)	Yearly citations (average)
James M. Weiss	2	0.38
Russell Kirkscey	2	1.13
Julie Vale	2	0.75
Stuart Marshall Bender	2	14.75
Abna Hidayati	2	1.75
Ciptro Handrianto	2	2.92
James Michael Weiss	2	0.38
Weng Marc Lim	2	1.90
Fajar Pradana	1	3.00
Lisa Herviani	1	0.00

Top author organizations

The author organizations with the most articles in this cluster. Each row lists the number of articles in this cluster from the last five years with at least one author from the specified organization. Data available for 101 of 124 articles. 21 had at least one author from one of these ten organizations.

Organization	Articles (last five years)	Yearly citations (average)
Curtin University - Australia	4	5.81
View further author information	2	0.63
Jilin University of Finance and Economics - China	2	0.13
Universidad de Costa Rica	2	0.25
Ação Educativa - Brazil	2	0.7
200032	2	0
Florida Gulf Coast University - United States	2	1.67
University of Alabama - United States	2	0
Sultan Idris Education University - Malaysia	2	2.92
Fu Jen Catholic University - Taiwan	2	0

Organization types

This table covers the 94 articles in this cluster from the five year period ending in 2023 with data about their author organization types (out of 124 articles total). [Read more](#)

Commercial	Education	Nonprofit	Government
0.41%	53.66%	2.85%	2.03%

Top industry organizations

The industry organizations with the most articles in this cluster. Each row lists the number of articles in this cluster from the last five years with at least one author from the specified organization. Data available for 1 out of 124 articles. 1 of these articles had at least one author from an organization listed below.

Organization	Articles (last five years)	Yearly citations (average)
Tata Consultancy Services (India)	1	0

Top funders

Data available for 7 out of 124 recent articles. 7 of these articles disclosed funding from one or more of these organizations.

Funding organization	Articles (last five years)	Yearly citations (average)
Elon University's Capstone Experiences Research Seminar	1	0.75
Research Institute of Rangsit University	1	0.00
National Science Foundation - United States	1	0.00
Universidad Europea	1	0.33
Ministry of Science and Technology - Taiwan	1	2.75
2020 Zhejiang Social Science Project, Zhejiang Province, China	1	0.00
Ministry of Research, Technology and Higher Education - Indonesia	1	0.00
CRUE-CSIC agreement	1	0.33
Universidad Europea de Madrid - Spain	1	0.33
Springer Nature	1	0.33

Funder types

This table covers the 3 articles in this cluster from the last five years with data about their funding organization types (out of 124 articles total).

Commercial	Education	Nonprofit	Government
0.00%	33.33%	0.00%	66.67%

Patents and industry

0 patents cite articles in this cluster (**0th** percentile among all clusters)

0% of articles in the cluster are cited by patents

0.35% of articles have at least one author from industry

Top patent titles

No data available.

Top patent assignees

No data available.

Connections

Top citing clusters

Cluster	Number of significant citations	CSET extracted phrases
19148	1	higher education, research inspired teaching, Undergraduate Research, Inquiry-based learning, STEM Education approach

Top cited clusters

Cluster	Number of significant citations	CSET extracted phrases
40264	2	higher education, student partnership, student experience, student co-creation roles, Engaging Students
3800	2	employability skills, Graduate Employability, Higher Education, career development, education institutions
6747	1	metacognitive skills, critical thinking skills, metacognitive awareness inventory, Students' Metacognitive Awareness, metacognitive knowledge Metacognitive
17301	1	Spatial Thinking, GIS education, Web GIS, GIS learning, learning GIS
42043	1	Capstone Design Projects, Engineering Capstone Design, Capstone Senior Design, engineering senior projects, Computer Engineering Capstone
659	1	Self-Regulated Learning, SRL strategies, collaborative learning, support SRL, learning performance
16364	1	Artificial Intelligence, Digital Journalism Studies, Journalism innovation, journalism studies research, social media platforms
257	1	Emotional intelligence, Intelligence Scale, academic performance, Academic Achievement, relationship between emotional
38242	1	Online learning, online education, higher education institutions, learning online, Education Students
5930	1	online learning, social presence, Community of Inquiry, online teaching presence, learning engagement
